

Mini 3 Junction Box - For Downlight Holes - Diagram

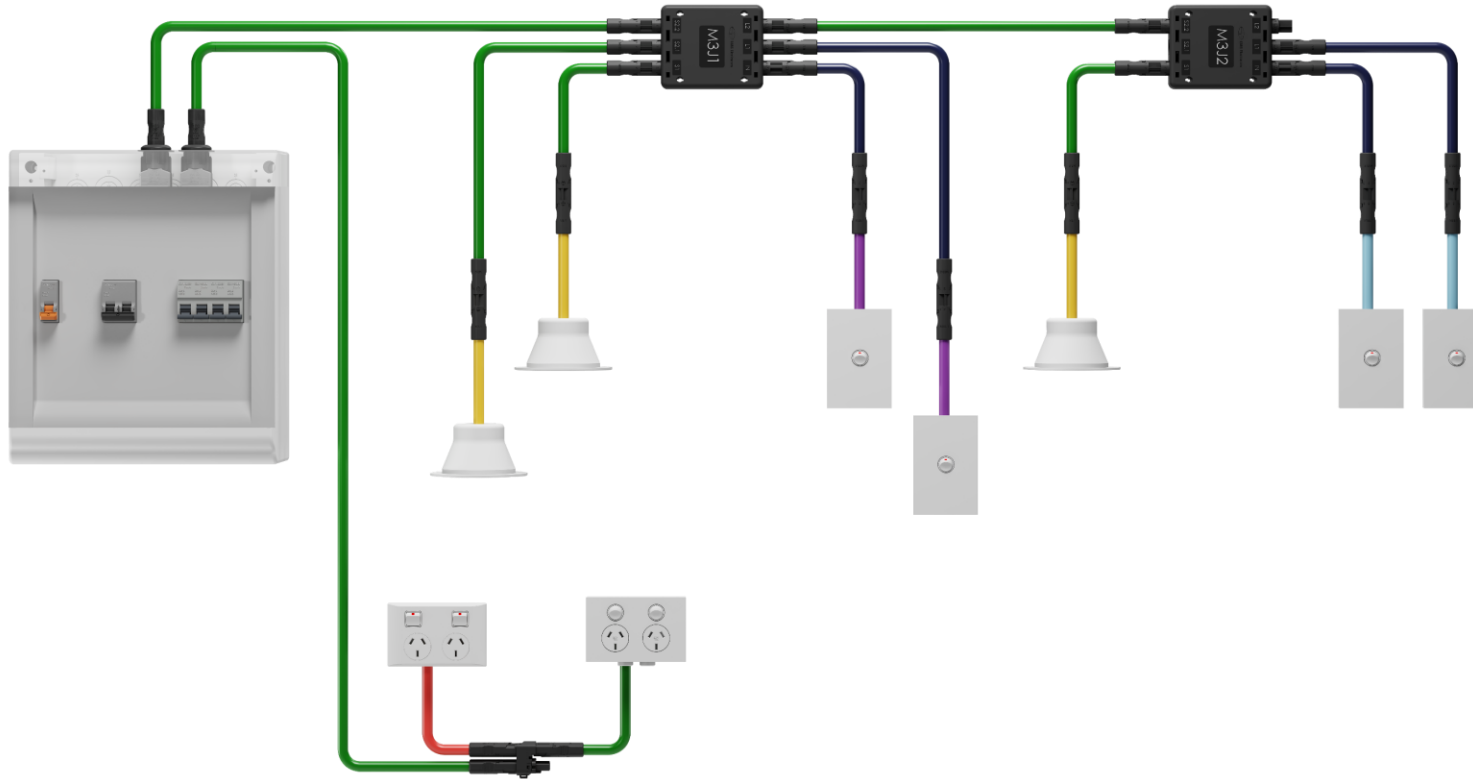

Hi Ann,

A while ago you created the Mini 3 Diagram (below) for us.

We need changes made to this diagram. Can you please review brief and let us know how much it will cost.

Mini 3 Junction Box - For Downlight Holes - Diagram

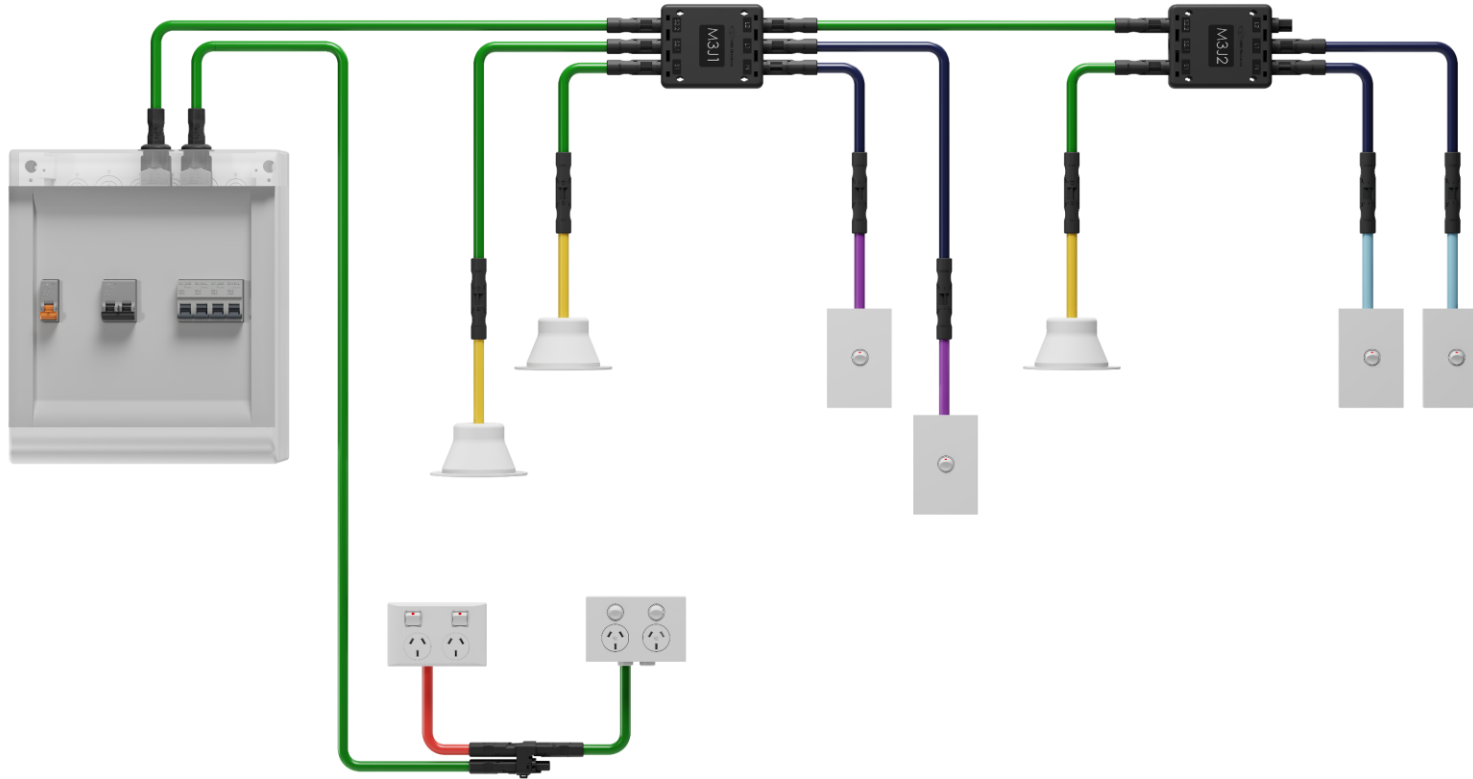

Changes

1. M3J1 – needs to be updated to M3J6
2. M3J2 – needs to be updated to M3J5
3. MJ37 – needs to be added
4. Need to add Mini 3 Splitter (waiting for STEP file from design team)

STEP files can be found at:

Mini 3 Junction Box - For Downlight Holes - Diagram

Changes

In Drop Box folder there is a folder called Renders – for reference on what the products need to look like.

5. Please see next page for reference on what needs to be done. Don't need to label what the parts are – I just put it in so you know what needs to be put in.

Angle for each junction for reference below – straight, tilt down:L
